PRESIDENT'S MESSAGE

Well, we made into August and I hope you're all staying busy and healthy. I have good news and bad news for you, first the good news Mike Huger

has returned and sick route is over, now for the bad news, we've seen so many problems and unprofessional conduct that we're going to have the sick route committee and the board review complaints on a case by case basis and in some cases there will be repercussions. We all should know the rules to sick route or who to ask but we're still hearing about members allegedly not showing up, not cleaning and doing unapproved work all of which is unacceptable. We are a professional association of professional pool people who want to educate and improve themselves, their businesses and help their fellow members when the need arrives. This is not an insurance association, even if we are able to offer in my opinion the best, most comprehensive coverage for the price to our members that is not the main purpose but a benefit. Enough said for the moment!

Some more good news, the BOARD has voted to rescind the proposed .75 cent transaction fee that was to have been started being charged this month until at least the first of the year and they have a chance to come up with the 2012 budget.

Don't miss out on our S.J. Giants BBQ on September 10, 2011 @ 6:00, it's going to be a lot of fun and food for only \$10.00 per person (members, employee members, chapter supporters and family).

We'll have Garrett Olsen from Hayward sponsoring this month's meeting and dinner. We will be barbequing so don't miss out and bring you're employees for free meal.

Also don't miss our new raffle for a Polaris 280 we have one from Burkett's to raffled off in September and one from Zodiac to be raffled off in November. Tickets are \$5.00 ea, come to meeting for more details and to purchase.

That's all for now, believe me I could go on but I need to get some work done myself so we'll see you at the meeting.

Good Luck and Stay Healthy,
Mark Lyons

Best Way To Fill A Pool!

*Diving Board
Removal?*

Frog Slide

Chemical Explosion >

Pool Brush with Magnet used to pick up more than a dozen or so nails from the bottom of the pool.

Monterey, California SEPTEMBER 29TH - OCTOBER 1ST, 2011

ANTIQUESHOWCASE

1990 was the introduction of PIE's Antiques Equipment Museum, a collection of unique relics and highlights of the pool industry's past. Service technicians can see and judge how it was done in the "old days." Showcases will be filled with amazing items, many originals and even some prototypes of existing products.

WATER CHEMISTRY CERTIFICATION

Under the sponsorship of IPSSA and PIE, certification in pool and spa water chemistry will be issued. This program will be offered during the seminar portion of

the Expo. All technicians who take and successfully complete the examination for Water Chemistry Certification will be issued an IPSSA/PIE Certificate. IPSSA members will also receive an IPSSA decal. Water Chemistry Exam will be Saturday, October 1st, 2011, from 1:00pm to 2:00pm.

PIE FACULTY

A glance at the seminar schedule confirms that the PIE Faculty is once again at the "Top Of the Class." Recognized experts from manufacturers, the service industry and business community will donate their time and effort to help provide the best education package available. You'll learn from instructors who have first hand knowledge plus years of experience. You will not only get the theory of how to do it, but, better yet, information and tips on how to do it better, faster and more professionally. You'll gain knowledge and learn how to improve your bottom line at the same time.
